CHROME DIESEL

Chrome Diesel is a clone-only strain with unknown parents, bred by Aerick77 (AE77), the creator of California Orange, more commonly known as Cali O. This strain possesses a complex flavor profile of lemon, lime, pine, anise, diesel, and haze. Its effects are uplifting and euphoric like a diesel, but can feel spacey like a heavier Sativa. Patients report strong relief from nausea, anxiety and depression, as well as lifted mood.
