

CANNABINOIDS

DEAD CHERRIES

Dead Cherries is a proprietary Indica grown by Grassroots. Although it is hard to pinpoint the exact genetics, this strain does not disappoint. Inspiring the name of this strain, the aroma is that of overripe tart cherries. When properly cured, a sweet, rich cherry flavor jumps off the buds, accented by some light herbal and floral notes. More dank, hashy tones linger underneath and are brought forward when the buds are broken open.

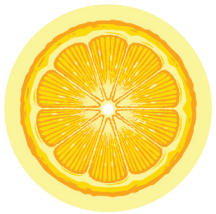
EFFECTS

RELAXING EUPHORIC UPLIFTING HAPPY SLEEPY

MEDICAL ATTRIBUTES

PAIN STRESS INSOMNIA LACK OF APPETITE DEPRESSION

TERPENES



LIMONENE
